

CAREER SNAPSHOT

Currently a Marie Skłodowska-Curie Fellow at the University of Manchester with a Ph.D. in Advanced Materials and Manufacturing from UNSW Sydney (2023). Specialisations in piezoelectric materials and tidal/ultrasonic vibration-driven energy conversion. Design and development of renewable energy and carbon-free systems in the form of mechanical- and light-activated functional materials and devices for hydrogen production and waste plastic upcycling. Publication of 30 papers (plus 6 in progress), approximately three-quarters of which are in high-impact journals (IF > 5). Two first-author patent applications on mechanochemical catalysis. Teaching experience in materials properties, design, selection, and applications at Macquarie University (coordination and teaching), Western Sydney University (coordination and teaching), and UNSW Sydney (tutoring).

CURRENT APPOINTMENT

Marie Curie Fellow
School of Chemical Engineering
University of Manchester, UK

PROFESSIONAL APPOINTMENTS

2026-	Marie Curie Fellow	School of Chemical Engineering, University of Manchester Supervisor: Prof. Christopher Hardacre
2025-26	Research Associate	School of Engineering, Macquarie University Supervisor: Prof. Yijiao Jiang
2023-25	Research Associate	School of Materials Science and Engineering, UNSW Sydney Supervisor: Prof. Charles C. Sorrell
2025-	Visiting Fellow	School of Materials Science and Engineering, UNSW Sydney Supervisor: Assoc. Prof. Pramod Koshy
2024-	Associate Editor	<i>Journal of Australian Ceramic Society</i>
2023-25	Teaching Associate	School of Engineering, Western Sydney University Supervisor: Assoc. Prof. Leigh Sheppard
2023-25	Materials Scientist	Vecor Technologies Pty. Ltd.
2017-23	Research Assistant	School of Materials Science and Engineering, UNSW Sydney

TERTIARY EDUCATION

2023	Ph.D. Thesis	Materials Science and Engineering, UNSW Sydney <i>Composition Control and Catalytic Activity of Sodium Bismuth Titanate Materials</i> Supervisor Prof. Charles C. Sorrell
2019	M.Sc. Thesis	Materials Science and Engineering, UNSW Sydney <i>Synthesis and Characterization of Photocatalytic PVA/TiO₂ Nanoparticulate Thin Films</i> Supervisors Prof. Charles C. Sorrell & A/Prof. Pramod Koshy
2016	B.E. Thesis	Polymer Materials Science and Engineering, Qingdao University, China <i>Characterisation and Catalytic Activity of WO₃-Al₂O₃ on Biomass Conversion</i> Supervisor Prof. Dongjiang Yang

TEACHING

Course Code	Course Title	Role	Tenure	Institution
MECH8204	<i>Advanced Engineering Materials</i> **	Lecturer, Tutor	1 year	Macquarie University
PROC2003	<i>Materials Selection and Design</i> *	Lecturer, Tutor	1 year	Western Sydney University
PROC4001	<i>Advanced Materials Topics</i> *	Convenor	1 year	Western Sydney University
MATS2003	<i>Materials Characterisation</i>	Tutor	1 year	UNSW Sydney

MATS3004	<i>Polymer Science and Engineering</i>	Tutor	2 years	UNSW Sydney
MATS4005	<i>Composites and Functional Materials</i>	Tutor	2 years	UNSW Sydney

* Course taught to Mechanical Engineering students

Postgraduate course

STUDENT SUPERVISION

Ph.D.	4 (2 graduated)
M.E./M.Sc./M.Phil.	10 (9 graduated)
Honours	17 (17 graduated)

PATENTS

Pending

- [1] **Y. Jiang**, C.C. Sorrell, P. Koshy, and D. Wang
A Piezo-Photocatalytic Process for the Production of Hydrogen from Water
 Australian Patent Application PCT/AU2023050445 (advanced 26 November 2024)
 US Patent Application 18/869,235 (filed 26 May 2023)
 European Patent Application, EP23810482.2A (filed 26 May 2023)

Waived

- [2] **Y. Jiang**, C.C. Sorrell, and P. Koshy
Sodium Bismuth Titanate Catalyst
 Australian Provisional Patent Application PCT/AU2022/051254 (filed 18 October 2022)
